Thu, 06 Dec 2018 10:03:00 GMT CCNP Routing and Switching - Cisco - Cisco security has integrated a comprehensive portfolio of network security technologies to provide advanced threat protection. Our technologies include

next-generation firewalls, intrusion prevention systems (IPS), secure access systems, security analytics, and malware defense. Sat, 08 Dec 2018 09:25:00 GMT Security Products and Solutions - Cisco - After finding the root bridge, All other switches in the network (non-root bridges) have to find the shortest path to the root bridge. This shortest path to root bridge is found out by calculating path cost. Always lowest path cost is better. Path cost of a Gigabit interface is less than a fast Ethernet link. So STP will choose a Gigabit link over fast Ethernet.
